Construction Works During Summer 2026

The English School building has reached its highest point. The topping-out ceremony was successfully celebrated in April. Installation of the brick roof is underway, and facade bricklaying has begun on the courtyard side of the building. The final appearance of the building is starting to take shape.

Inside the building, the first finished surfaces have been completed. Work is progressing according to a carefully phased construction schedule. Approximately 100 workers enter the site through the construction gate each day.

Construction work will continue throughout the summer holiday season.

We apologize for any inconvenience caused by the construction work.

You can follow the progress of the school construction via the QR code and on The English School's website: https://engs.fi/new-school/.
